

**Human Omni5 BeadChip Kit (Illumina)**  
**Pediatric Preclinical Testing Program (PPTP) – Copy Number**

\*Protocol performed at Nationwide Children's Hospital.

Nucleic acid labeling for the Human Omni5 BeadChip was performed to Illumina's manufacturer's standard protocol, please refer to Illumina Infinium LCG Quad Assay protocols manual.

Hybridization Human Omni5 BeadChip was performed to manufacturer's standard protocol, please refer to Illumina Infinium LCG Quad Assay protocols manual

Scanning Human Omni5 BeadChip was performed according to manufacturer's standard protocol using use Illumina HiScan instrument with iScan software.
